World Tree – Vicki Bloom

CA – Fri. 12-4PM & Sat. 8:30PM???

The World Tree is an immense tree, with cities in its upper branches. The people are in several species, none close to human, from the bipedal dog-like Cani, clever raccoon-morph Rassimel, and shape-shifting ottery Orren to the brutish floating octopus Khtsoyis. Magic is common, though more people use it for cleaning the house than for destroying cities.

On behalf of Anthrocon, I'd like to thank all of our event volunteers and suggest that everyone else thank them as well! In the unfortunate scenario that any event leader's biography was not printed here or in the conbook, let me say that I am truly sorry and accept full responsibility. If anyone was missed, I will see about noting the omission and placing a bio for you on the Anthrocon website.

Once again, thank you everyone, especially Jonah "Points" Safar for his close and careful guidance in my first full year as Programming Director!
